III. OTHER REMINDER

The investors are reminded to pay attention to other significant information concerning the Company's operations during the Reporting Period

(I) Overview of operating results

During the Reporting Period, the operating revenue of the Group amounted to RMB10,157 million, representing a decrease of 6.56% as compared to the same period of last year. The period-on-period change was mainly attributable to the contributions from the COVID-19 related products such as Jie Bei An (azvudine tablets) to the revenue for the first quarter of 2023, which decreased significantly for the same period in 2024 compared with last year.

Excluding the COVID-19 related products, the operating revenue of the Group during the Reporting Period recorded a period-on-period increase. In particular, the revenue from key products such as trastuzumab for injection (trade name in Chinese mainland: Han Qu You), serplulimab injection (trade name in Chinese mainland: Han Si Zhuang) and netupitant and palonosetron hydrochloride capsules (trade name in Chinese mainland: Akynzeo) maintained rapid growth.

During the Reporting Period, the Group's net profit attributable to shareholders of the listed company amounted to RMB610 million, representing a period-on-period decrease of 38.22%. In particular, the net profit attributable to shareholders of the listed company after deducting extraordinary gain or loss amounted to RMB609 million, representing a period-on-period decrease of 33.81%, which was mainly due to the following factors: ① the COVID-19 related products contributed sales in the same period of last year, while the revenue of such products recorded a significant decline in 2024, resulting in a corresponding decrease in the profit; and ② the impact of the amortisation of the acquisition of Cenexi by Gland Pharma and the impact of operating loss of Cenexi. During the Reporting Period, the Group's extraordinary gain or loss amounted to RMB1 million, representing a period-on-period decrease of RMB66 million, which was mainly due to the inclusion of gains on the disposal of non-core assets, such as Tianjin Pharmaceutical Group Co., Ltd* (天津藥業集團有限公司), in the corresponding period of the last year.

During the Reporting Period, the Group recorded net cash flow generated from operating activities of RMB917 million, representing a period-on-period increase of 5.05%.

Since 2024, the Group's main operations and product R&D progress are as follows:

1. Continued to promote the innovation transformation and the development and launch of innovative products

(1) *Innovative products approved for launch*

During the Reporting Period, the rabies vaccine (Vero cell) for human use (freeze dried), independently developed by the Group, has been approved for launch in Chinese mainland (excluding Hong Kong, Macau and Taiwan, China, the same below). Such vaccine is freeze dried injection and CTN-1V strain was used as its virus strain for production, whose gene sequence is closer to that of the street strain of prevailing rabies virus, and is safer and has better immune protection effect. The F-i6000 fully automatic chemiluminescence immunoassay analyzer independently developed by the Group has been approved for launch. F-i6000 is an ultra-high-speed immunoassay analyzer for which the Group has completely independent intellectual property rights, and can be connected to the laboratory automation system to provide an overall solution.

As at the date of this report, the Group's self-developed biosimilar drug trastuzumab for injection (trade name in Chinese mainland: Han Qu You) for ① adjuvant therapy of HER2-overexpressing breast cancer; ② the therapy of HER2-overexpressing metastatic breast cancer; and ③ the therapy of HER2-overexpressing metastatic gastric or gastroesophageal junction adenocarcinoma has been approved for launch by the U.S. FDA, becoming the first domestically produced biosimilar drug approved in Chinese mainland, EU and the U.S..

In addition, during the Reporting Period, the Ion Bronchial navigation operation control system ("Ion System") of Intuitive Surgical-Fosun Medical Technology (Shanghai) Co., Ltd.* (觀復星醫器械技術(上海)有限公司) ("Intuitive Fosun") (an associate) has been approved by the National Medical Products Administration of the People's Republic of China (the "NMPA") for launch. The Ion System has adopted a flexible robot with shape sensing technology, which can accurately diagnose and treat peripheral lung lesions through the bronchus. The launch of the Ion System in China will help more lung cancer patients obtain early diagnosis and treatment through more minimally invasive methods.

(2) *Several products successfully entering the key clinical/approval stage*

During the Reporting Period, two Phase III clinical studies of the combination dosing of OP0595 jointly developed by the Group and Meiji Seika Pharma Co., Ltd. and cefepime or aztreonam for the treatment of adults infected by aerobic gram-negative bacteria with limited treatment options, have been initiated in Chinese mainland. The supplemental new drug applications of Han Da Yuan (adalimumab injection), a biosimilar drug independently developed by the Group, for 4 new indications have been accepted by the NMPA, namely ① polyarticular juvenile idiopathic arthritis, ② pediatric plaque psoriasis, ③ Crohn's disease and ④ pediatric Crohn's disease. As of the date of this report, the international multicenter phase III clinical study for a biosimilar of denosumab HLX14 (recombinant anti-RANKL fully human monoclonal antibody injection) independently developed by the Group for the treatment of postmenopausal osteoporosis in women with high fracture risks has met the primary study endpoint.

In addition, during the Reporting Period, Intuitive Fosun's Da Vinci SP endoscopic single-hole surgery system was included in the special review procedure for innovative medical devices of the NMPA, which is conducive to accelerating the progress of subsequent registration, review and approval.

(3) *Several self-developed innovative drug projects approved for clinical trials*

During the Reporting Period, XH-S004 tablets (for the treatment of non-cystic fibrosis bronchiectasis), GCK-01 cell injection (for the treatment of relapsed or chemotherapy-resistant follicular lymphoma), XS-02 capsules (for the treatment of advanced solid tumors), HLX6018 (for the treatment of idiopathic pulmonary fibrosis) and other drugs independently developed by the Group have been approved for clinical trials in Chinese mainland, among which: the phase I clinical trial of XH-S004 tablets has been initiated during the Reporting Period.

2. **Actively promote the commercialization process of marketed products**

During the Reporting Period, the Group actively promoted the commercialization process of new marketed products, including Bei Wen (穩) (keverprazan hydrochloride tablets), the first potassium ion competitive acid blocker (P-CAB) independently developed in China, Pei Jin (珮金) (telpegfilgrastim injection), a long-lasting recombinant human granulocyte colony-stimulating factor product, Pang Bi Fu (旁必福) (etelcalcetide hydrochloride injection), the new generation of calcimimetic, and Yi Xin Tan (心坦) (sacubitril valsartan sodium tablets), the drug for the treatment of heart failure and hypertension in an innovative crystalline form. Among them, Bei Wen, Pei Jin and Yi Xin Tan were included in the National Basic Medical Insurance, Work-Related Injury Insurance and Maternity Insurance Drugs Catalogue (《國家基本醫 保險、工 保險和生育保險藥品 錄》). In addition, during the Reporting Period, Yi Kai Da (ejilunsai

injection), a product of the joint venture Fosun Kite Biological Technology Co., Ltd.* (復星凱特生物科技有限公司), introduced an innovative payment plan based on therapeutic effects in Chinese mainland, exploring a new path for payment mode of high-value innovative drugs in Chinese mainland.

3. BD and investment progress

During the Reporting Period, Shanghai Henlius Biotech, Inc.* (上海復宏漢霖生物技術股份有限公司), a subsidiary, had entered into strategic cooperation and exclusive license agreements with Sermonix Pharmaceuticals, Inc., aiming to develop, manufacture and commercialize at least two indications for ER+/HER2- breast cancer of lasofoxifene in Chinese mainland, Hong Kong, Macau and Taiwan region. In addition, Sisram Medical Ltd, a subsidiary, established a strategic partnership with Prollenium Medical Technology, and obtained the exclusive distribution rights of the Revanesse dermal filler collection, which applies advanced hyaluronic acid technology, in several markets including Germany, Austria, Switzerland, Australia and New Zealand.

In addition, during the Reporting Period, the Group formally entered into an agreement with the Shenzhen Municipal and District Guidance Funds to jointly establish the Shenzhen Pengfu Biopharmaceutical Industry Private Equity Investment Fund Partnership Enterprise (Limited Partnership)* (深圳市鵬復生物醫藥產業私募股權投資基金合夥企業(有限合夥)) (“Shenzhen Biomedical Industry Fund”). The fund has been subscribed with a total amount of RMB5.0 billion, of which the Group contributed RMB1.5 billion in cash (representing 30% of the Shenzhen Biomedical Industry Fund), and a subsidiary, Shanghai Fujian Equity Investment Fund Management Co., Ltd.* (上海復 股權投資基金管理有限公司), serves as the fund manager. After the establishment, the Shenzhen Biomedical Industry Fund will center around Shenzhen with a focus on the biomedical field.

(II) Others

1. Unlocking of the restricted A Shares under the Incentive Scheme

On 9 January 2024, the 42nd meeting of the ninth session of the Board of Directors and the first meeting of the ninth session of the Supervisory Committee of the Company in 2024 approved the unlocking of a total of 774,114 restricted A shares held by 113 participants of the first grant under the Company’s 2022 restricted A share Incentive Scheme, and these shares were listed and traded on 16 January 2024.

2. Increase in Shareholding by a Controlling Shareholder

Fosun High Tech, a controlling shareholder of the Company, planned to further increase its shareholding in the Company (including A Shares and/or H Shares) by way of, including but not limited to, centralised price bidding or block trade at the stock exchanges and transfer by agreement (and/or through parties acting in concert with it) within the 12-month period commencing from 13 September 2023 (inclusive), if and where appropriate, and the cumulative total consideration thereof shall not be less than RMB100 million¹ (including the total consideration for an increase in shareholding of A Shares of not less than RMB100 million) and the additional shareholding interest to be acquired in aggregate shall not exceed 2% of the total issued shares of the Company as at 13 September 2023 (i.e. 2,672,156,611 Shares, the same below) (and the aggregated number of shares in the Company to be acquired in the 12-month period on a rolling basis shall not exceed 2% of the total issued shares of the Company). Fosun High Tech and/or parties acting in concert with it shall not reduce its/their shareholding in the Company during the implementation of the shareholding increase plan and within the statutory restricted period.

As of 29 April 2024, pursuant to the shareholding increase plan, Fosun High Tech acquired a total of 720,000 Shares of the Company (all being A Shares), representing approximately 0.03% of the total number of Shares of the Company in issue as at 13 September 2023, with a total purchase price of approximately RMB20.0822 million.

3. Share Repurchase Proposal

At the 47th meeting of the ninth session of the Board of Directors of the Company on 26 March 2024, the share repurchase proposal was considered and approved, pursuant to which, the Company could repurchase A shares of the Company through centralized price bidding with 6 months from the date of consideration and approval of the share repurchase proposal, i.e. from 26 March 2024 to 25 September 2024 (both days inclusive). The total repurchase fund shall be not less than RMB100 million and not more than RMB200 million (both inclusive) and the repurchase price not more than RMB30 per share (inclusive). The repurchased shares will be used for the implementation of the Company's share incentive scheme and/or employee share ownership scheme (if it fails to be transferred within the period required by laws and regulations and the regulatory requirements of the Company's A-share listing place for the above purposes, it will be cancelled no later than three years after the announcement of the repurchase results and share changes in relation to the repurchase).

As of 29 April 2024, the Company has not repurchased any shares.

¹ The exchange rate of HKD against RMB is converted based on the central parity rate of HKD against RMB announced by the People's Bank of China on the day of the relevant shareholding increase.
